

# Genes and Faith

Name \_\_\_\_\_

Go to <http://www.pbs.org/faithandreason/>. Click on Genetics. On the right click on Genes and Sin. Read this and give me a 2 or 3 sentence summary of it.

1.

On the right click on cloning. Read through this and answer the following:

2. What did Richard Seed announce in 1998?

3. What does Ted Peters think about a cloned baby?

On the left click on Home. Down at the bottom click on Interviews. Scroll down to Dr. Francis Collins and click on him.

4. What is he the director of?

Scroll down to the 3<sup>rd</sup> question.

5. What writer strongly influenced him?

6. What is the most important organizing principle in his life?

7. Scroll down to question 5. What is the spiritual world to him?

Go back to Home on the left. Then interviews again. Scroll down and click this time on Ted Peters.

8. What is he a professor of?

9. Scroll down to the 7<sup>th</sup> question (I know this is a pain) What is genetic determinism and what is 1 problem with it according to Dr. Peters?

10. Scroll down to question 8. What does he say is a 3-part determinist?

11. Question 11. Give a short summary of his response to this question of original sin.

12. Question 12. Why does he think contemporary genetic determinism is more fatalistic than traditional Christianity?
